

Product Design & Engineering Services

About Us

Logical Solutions is a dynamic team of experts, engineers, and visionaries who have been at the forefront of the engineering and design industry for over two decades. Our journey began with a simple yet profound mission: to empower businesses and individuals to transform their ideas into remarkable designs and tangible products.

As a leading Authorized Reseller of Dassault Systèmes SOLIDWORKS Corp, our journey has taken us to new heights. We have evolved with the ever-changing landscape of technology, staying at the forefront of design and engineering innovations. With our headquarters in Hyderabad, Telangana, and Andhra Pradesh, India, we are strategically positioned to serve a diverse clientele across the region.

Our Core Values

- At **Logical Solutions Limited**, our core values define who we are and how we operate.
- **Excellence:** We relentlessly pursue excellence in all that we do, ensuring that our solutions and services meet the highest standards.
- **Customer-Centric:** Our customers are at the center of our universe. We are committed to understanding your unique needs and providing tailored solutions.
- **Innovation:** We embrace innovation as a driving force, constantly seeking new ways to empower your creativity and efficiency.
- **Collaboration:** We believe in the power of collaboration and partnership, working closely with you to achieve shared success.

WHAT WE OFFER

Software Licensing

Access the full suite of SOLIDWORKS Corp software solutions, tailored to your specific needs, including SOLIDWORKS, 3DExperience, DraftSight, and SOLIDWORKS Electrical.

Expert Training

Equip your team with the knowledge and skills they need to maximize the potential of SOLIDWORKS Corp software through our comprehensive training programs.

Support Services

Enjoy peace of mind with our responsive and knowledgeable support team, ready to assist you in overcoming challenges and achieving your goals.

Design Services

With our extensive experience and innovative approach, we are confident in our ability to assist you in overcoming any design hurdles that may arise.

Services

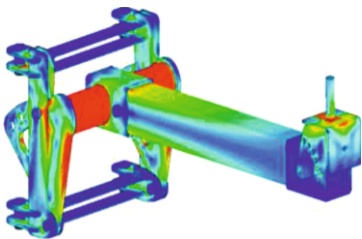

Logical Solutions is proud to provide a wide range of exceptional services to our valued clients. With years of experience under our belts, we have developed a reputation for delivering top-notch results in a timely and cost-effective manner. Our team of skilled professionals provides customized solutions that meet the unique needs of each client. Whether you require assistance with project management, consulting or any other business-related service, we have the expertise to help you achieve your goals.

CAD Services

Logical Solutions is a team of highly skilled engineers with a wealth of experience in 3D CAD modeling. Our expertise spans across a range of industries, including aerospace & defence, automotive, heavy engineering, machine design and medical. We pride ourselves on our responsiveness to customer needs and our proactive approach to issue tracking and problem resolution. Our goal is to build customer confidence by providing comprehensive support and expertise that our clients require.

Analysis Consulting

Engineers at Logical Solutions are highly qualified experts in engineering domain, providing a comprehensive range of analysis and simulation solutions

for product development. Our vast experience, focus and commitment ensure that our customers receive valuable services that aim to delight them. Our Analysis and Simulation team of Engineers has over 20+ years of experience in FEA and related numerical methods. Each analyst is equipped with industrial experience and exposure to provide world-class mechanical analysis services.

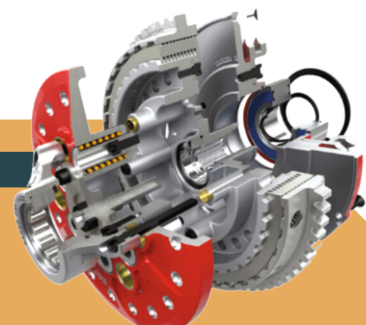

Product Data Management Service

We offer data connectivity services to integrate your EPDM system with ERP, MRP, and PLM systems, enabling efficient data exchange across your organization. Furthermore, our team is equipped to handle the migration of old data to the new EPDM vault, ensuring that no valuable information is left behind. As part of our comprehensive services, we provide pilot implementation and initial production rollout, with onsite support to address any issues and ensure a successful deployment. Our goal is to empower your business with a robust EPDM solution that meets your unique needs and drives productivity.

SOLIDWORKS Training & Certifications

Our comprehensive range of SOLIDWORKS training courses offers a variety of options to equip your team with the essential skills needed to fully leverage these powerful tools. Whether it's mastering design techniques, understanding advanced features, or optimizing workflow efficiency, our courses are designed to meet your specific needs and enhance your team's proficiency in SOLIDWORKS. With our professional training, your team will be well-prepared to maximize the potential of these industry-leading software solutions.
